About This Game

Step into the shoes of Freudia Neuwahl, a cool and collected young woman on a mission to save her best friend from an Imperial witch hunt.

"Rosenkreuzstilette Freudenstachel" is the sequel to "Rosenkreuzstilette", a level-based 2D side scrolling action game for PC.

STORY

Thousands of years have passed since "magic" was lost to the people. Now there are but a few who even know of its existence. Those who possessed magical abilities were faced with persecution.

Several months have passed since Count Zeppelin's ill-fated rebellion against the Holy Empire and the Orthodox Church.

Rebuilding the damage caused by Rosenkreuzstilette, the Pope issues a solemn decree: that all Magi are to be considered menaces to society and enemies of the state. Establishing his own strike force of magic-users loyal to the faith, Schwarzkreuz, the Pope and his followers set out to put an end to the last of the resistance.

Spiritia Rosenberg, the plucky young woman responsible for quashing the Count's uprising, is among the first to be captured during Schwarzkreuz's witch hunt. As Freudia Neuwahl, Spiritia's lifelong friend, you must ensure the safety of the surviving members of Rosenkreuzstilette, put an end to Schwarzkreuz and the Pope's oppression of the Magi, and bring Spiritia home...

GAME SYSTEM

Your objective is to defeat each of the 8 bosses of the game.

A fun game, try it out (for now).. My processor can't run them and my graphic card was set ablaze faster than Notre Dame; 10V10 for accurate system requirements.. Very nicely done and beautiful scenery....probably the best scenery addition I own. With that said, if you don't like or want realistic scenery, then this isn't for you. Most of the route is single track with speed at 25 mph. No fast rail here and not a lot of other traffic. I've never driven trains in real life, however, this is exactly what I would expect if I did.....a lot of time and challenges of hauling heavy freight over track while enjoying the beauty of nature!! I've only owned this package for about a week, however, it has become and will be a favorite of mine for a long time to come!!!. Khet 2.0 brings all the fun of the board game with the added benefit of being able to play with friends online.. It's not bad, and I really love the art style of the comic book interludes, but I can't recommend this game. It's just sorta barebones in terms of gameplay and at the climax the game bugged out on me and some of the cutscenes and playable segments were entirely black.

I guess it is worth two dollars, but I didn't have that much fun with it all the same.. The old man reminds me of Bill from Left 4 Dead.

I used to love this game, bought it as soon as i saw it on Steam. Unfortunately, they have changed absolutely nothing within the game. 0 improvements, nothing new. Same static camera, maybe %5 improved graphics and nothing more. The cars, the music, the gameplay remains the same; dont know what the redline edition implies tbh. Was utterly disappointed and im sadly refunding the game.. Great game, needs a level editor though.. **PLAY WITH A CONTROLER**

I'm having a\u2665\u2665\u2665\u2665\u2665ton of fun playing this game. Phantom Jump is a very demanding precision platformer heavily inspired by IWBTG fangames.

S-Ranks will require you to optimize your route to the last frame, and ironman challenges require more precision than those of Super Meat Boy.

While fangame experience is not required it is warmly recommended.. Boardgame/adventure/rpg-ish game with more wit and charm than most imitators (which are non-existing for this particular game). Give the demo a try, its graphics and sounds are simple, but the core is pure gold.. Another great game by Gamehouse. Your usually time management game with familiar mechanics used throughout the Fabulous & Delicious games including finding the mouse every level. I personally love the different restaurant settings as I grew up with my parents as chefs owning restaurants. Great game for some fun downtime!
